resist an invitation couched in such terms and emanating from such a source?"

source?"
"I will come," I said briefly, for the
eachier's manner affected me with an
incepticably unpleasant sensation, and
turned again to my work.

turned again to my work.

I reached the Day mansion at an early hour the next afternoon, and, as I had hoped, yet feared, found Enid slone in the drawing room. She did not turn to meet me as I entered, but remained standing near the window, wently the standard of the st

partly enfolded by the curtain. I advanced toward her and timidly offered my hand, which she did not

fered my hand, which she did not seem to notice. Resential, and yet loving her—ob, more than ever—I drew back, and said:

"Your father invited me, Miss Enid;
I—I thought you wished me to come,
or I should not have troubled you. It
is not too late now. You might convey my excuses to your father, and I

ver my excuses to your father, and will pushed, hoping she would auswer, but, with her isca averted, she remained silent. I waited a moment, looking at her greated if figure with a foolish mist rising in my eyes. Then I turned softly about and was making

looking at her praceful figure with a foolism and thing in my eyes. Thou I turned softly about and was making my way out of the room, when there were made to the property of the room, when there is possible to the property of the room, when the work was made and the room of the roo

too warm little hands in mine, and, searcely conscious of what I did, ifflood them to my lips and kissed them in turn. Her name seemed to tear it-self from the depths of my bosom with an secent of passion and; pleading that must have teld her my whole story, had she been ignorant of it before. "Raid! Beautiful End!"

A wave of delicious color swept over her face and threat. For asccond her hands trembled in mine, nay, clung to IGHLAND RECORDER. Torres \$1 50 a Vene in Advance.

# Mrs. Sally McLaughlin, personally known to many of our readers.

was called to her reward, on last Tuesday night, at her home on Jacksons river, after a short illness. She was one of the oldest citizens in the county, being in her 84th year. Aside from a few slight sick spells, her health has been good all her life, and up to the last year she was remarkably active for one of her age. A physician told us, recently, that she had all of her teeth yet and they were perfectly sound. The deceased was much loved by her many friends, and re-

sound. The deceased was much loved by her many friends, and respected by all who knew her. The place she has so faithfully filled for so long being now vacant, will be the cause of many a heartache, but her mission here is ended and she has been called to reap the reward of a well-spent life.

1 ....

While the stove is cold rub all dust off with a cloth well saturated with kerosene oil, then rub dry; then take the marrow (rom a beef bone) (or suite the marrow on the transport of the marrow on quito thick, and it will not rust if pat sawy. If stove is in use, after you make fire, take paper and rub) dry. Open window and let the macke out. A good polish, if rubbed on occasionally, is a sure cure for rust. Try it.

#### PLUCKING CHICKENS.

Plucking fowls may be easily and quickly accomplished in this way: As soon as the bird is dead immerse it in a pail of very hot water, the water to cover all the feathers. minute is usually long enough to keep the fowl under hot water; too long soaking is liable to discolor the skin. After this hot bath the feathers are so loosened that they can almost be rubbed off. The bird is then rinsed in cold water and wined with a soft cloth. It should then be put into a cotton bag kept for this purpose and hung in a cool place. When fowls are not to be used at once, they should always be loosely rolled in cloth or paper to keep them from turning dark. Ducks cannot be managed in this way, as their feathers contain so much oil that the water does not penetrate them.

West Virginia Dots TOP OF ALLESHANY. Feb. 10 .--Winter has come at last; snow from 15 to 18 inches deep, to say nothing about the drifts -they will tell for themselves when you start

#### STOLE \$30,000 IN SILVER.

Robbers Hold Up a Pack Train of Burres in

A band of robbers attacked a pack train of burros loaded with silver baillon, bound from Sembreret to San Falipe, Mexico, and made a haul of \$90,000. The buillon was owned by the proprietor; of the Julio mine. Part of the mounted guard accompanying the train joined the robbers and assisted in capturing their conpanions. The burros were driven into the mountains. The faithful members of the guard were found bound on the road.

#### WIFE MURDERS HER HUSBAND.

She Accused Him of Treating Her Unkindly and Calling Her Names.

George Davies, for many years a prominent commission merchant of Cleveland, Ohio, was shot dead by his wife at the residence of the couple, Il Graco stroet. Davie and his wife lived unhapply, and the tragedy was the result of a long series of quarrels. Mrs. Davies was arrested shortly after the shooting on the oharge of murder. When taken into custody she wept bitterly, and said her husband had treated her unkindly, and had called her bitter names.

Mr. B. G. Miller, the West Virginia representative of the wholesale shee house of Wingo, Ellett' & Crump, is at Ford's Hotel. Said he last night; "West Virginia has its first negro republican legislator and he is causing lots of trouble. Ever since he has been in Charleston he has been a source of great annovance to his party. They don't want to associate with him. Recently a reception to the republicans was held and the negro was not invited. When the Governor's reception was held there were four republicans on the committee and three democrats. The democrats wanted to invite the negro and the republicans were in the majority; he was not invited. That darkey promises to be an eyesore to the republicans as long as he is a lawmaker. If his white colleagues have any say in the future- there won't he any more colored legislators in West Virginia, -- Richmond

State.

# Married, Under this caption in the Pocaiontas Tikes of last week appeared

the notice of the inarrings of the editor of the Times, viz: NAt the residence of the bride's father. Alvin Clark, near Academy, on Wednesd iv. February 10, by Rev. Wil-

liam T. Price, assisted by Key. Dr.

Sydenstricker, Mr. Andrew Price, of Marlinton, to Miss Grace Leigh Clark. A lurge concourse of friends and relatives witnessed the auspicious event."

And, strange to relate, immediately following was: "Pay your subscriptions." Do you imagine the editor cares about anything so commonplace as a subscriber in ar-

rears, even if he wanted to pay up

a year in advance?

Out-door life and Scott's Emulsion of Cod-liver Oil with

Hypophosphites have cured thousands of cases of consumption in the early stages. They cure old, advanced cases too; but not so many, nor so promptly. When a case is so far advanced that a cure cannot be made, even then SCOTT'S EMULSION checks the rapid ity of the disease, relieves the pains in the chest, reduces the night sweats, and makes the couph easier. In these cases it comforts and prolongs life. Don't experiment with cures that destroy the digestion. Pin your faith to the one remedy which has been THE STAN DARD FOR OVER 20 YEARS. Book about it free for the asking.

For sale by all druggists at 50c. and \$1.00.

Millboro, H. D. Bishop; ; Stainton, F. J. Prettymin.

From Dunmore to fleadow Dale, Our Dunmore correspondent, in his letter which appeared in last issue spenks of there being some talk of making a road from Dunmore to Meadow Dale. The matter has never been before our su-

nervisors, but we are confident that such a road would be of great benefit to the merchants at Meadow Dule, Hightown and Monterey and the proprietor of Hevener's mill. es well as the public generally, and they should make a move to present it to the Board that it may be considered in the right way. apper part of Pocahontas county

can now be reached by a good road and a direct route, but the middle and lower portions of the county have no direct outlet to the east. and the one that is used is a very poor excuse for a road. Our correspondent says the distance will be greatly reduced and that a portion of the road is al-

ready built. These facts, together with the fact that trade between the two counties would be greatly increased if the road is built, are certainly favorable toward having the matter investigated. Board of Supervisors, we lieve, are always ready to catch on to anything that will be of interest to the county; and in this case, if they see it is to the advantage of the county to build the road. they will not hesitate in doing so.

ped them in cotton, and hung them are a sore to keep them from freezing. In the spring they had shrouk to the aftee of peer, but they were planted and carefully nurroused. A pailtral of the potnices was dug in the autumn. The crop the second year was six hundred to the strength of the second year was six hundred to the second year. The second year was the hundred to the second year was the hundred with the second year. It was not the second year was the second year was the second year. It was not the people of Northean Canada.

From Pocahontas County. DEER CREEK, W. Va. April 14 .-News from this section has never bad a place in the columns of the Recorder, therefore I will endeavor

to note a few-happenings which I hope will be of interest to a few, at least, of your many readers. Owing to the cold, gloomy days of the past week it seems as though spring had put on the garb of winter.

The farmers are all onite busy plowing and sowing oats. The Sunday-school of Liberty

church was organized last Sunday with an enrollment of forty, there not being more than haif of the

scholars present. C. H. Cleek is spending several days in this neighborhood this w'k. Last week Dr. Mooman was called to Lewisburg to see his daughter who is quite ill. Mr. and Mrs. J. R. Warwick re-

turned home Sunday from a visit to Mountain Grove, the latter having been called to see her brother, D. G. Cleek, who is quite ill. Messre, A. M. Oliver and Forest Warwick, two of our neighborhood boys, are now employed at the Hot Springs. We hear that Rev. Mr. Ever

will preach his first sermon at Green Bank Sunday a week. Miss Annie Hughes and niece, Miss Florence Hughes, are visiting friends in this vicinity. With best wishes for the success

of the Recorder.

SINDY SUR.

lie Eskridge.

Rostar

The Posakontas Times of the 23d inst. contains a long account of a man's ergel treatment of his wife, from which we take the fol-

lowing leading facts: George W. Roberts, of Pennsel. vania, came to Pocahontas county a comple of years ago and was a book-keeper at a luniber camp. Last summer he married Rosa Lindson tored 15. On the 17th he and his wife arrived at Marlinton and stonped at Uriah Bird's botel. The wife was sick and kept in her room and kept it locked. Sonday morning she came down with her arm tied up, and, while her husband was out, left town. Her room was examined, and the walls, floor and bed were spattered with 11 od. She went to Edgar Sharp's, ten miles from Marlinton, and told him she was in trouble, crving bitterly. and while resting there the blood began dropping off the ends of her fingers. Mrs. Sharp dressed her arm and found that she had been out with a knife, the gash reaching almost the entire length of the arm. Her husband came up shortly after and claimed that the woman was his sister. At no time did she mention his name in connection with her injuries, but ou the contrary she shielded him. He took her away from Mr. Sharp's to Caroline Smith's, a distance of seven miles, where they took supper. Here he passed her off as his niece. They went then to Dave Sharp's. four miles, making in all 21 miles the wife had walked during the

day with a bleeding wound. Here

they arranged to spend the night. and Mrs. Roberts shared Mr. Sharp's daughter's room. Robert's est up .. entil one o'clock, when he attempted to enter the room, and Mr. Sharp took him by the collar and put him ! out of the house. On Roberts demanding his wife to follow him. she arose, dressed and left the house. Mr. Sharp tried to persuade her to stay, but she would not. After they left a pistol shot was heard. but nothing more was seen of the parties until the poxt day, when Roberts came to a house near Shorn's and his clothes were covered with blood. He wanted to go to Addison, but when refused assistonce he started on foot. Robert's bloody clothes aroused suspicion. and neighbors went to where they had heard the shot. There they found a pool of blood and a womon's handkerchief. This fact was reported and a warrant was issued. and Roberts was arrested on Willings River Mountain. His wife was with him, and the appearance of her face was an awful sight. showed that she had been unmercifully beaten. She told that she had fallen from a wagon.

the wife had walked during the day with a bleeding wound. Here

was with hus, and the appearance of her face was an avful sight. It is the state of the face was an avful sight. It is the state of the face of the fa

deroes attack on her at Bird's hotel with a knife. After leaving Dave Sharp's that night he pressed derons attack on her at Bird's hotel with a knife. After leaving Dave Sharp's that night be pressed the muzzle of the pistol to her head and told her that see was about to killed. At that moment she evidently suffered all the terror of those who come wittingly to violent deaths. He discharged the pistol while it rested against her head, and turning it in his hand beat her face into a pulp. The shot was that heard by Sharp. The woman is threatened with blood poisoning. Her wounds are terrible. The principal cut extends the whole length of her arm. It gapes an inch or more and is to the houe. There are other cuts-one in the breast and the other across the wrist--which are serious. She

was beaten about the head with the piskel, the hammer of which made some bad wounds in the back of the head. Her face is almost in a pulp. Owing to their face of surgical attention they could not be sewed in at the time when a doctor attended her. Her nose was broken also.

Finas adds that the silence of the woman ceased when she found herself in the hands of persons who were friendly, and she disclose of a fearful story, which we give in the words of the Times: "Briefly related, her statement is that Saturday her husband, in an insune it of leadousy, made a mur-

There is something supremely touching in her effort to hide and shield for bushand when these wounds were first made."

The prisoner waived examination and can get no bail. He wanted to be taken to juil, fearing violence from the nee pie.

GREEN BANK, May 4.—We have had fine wenther, but a nice little anow visited us yesterday morning. Mr. Howard Patteron was visiting here a few days ago.

Ar. Bob Gurn visited Top of "Allelghany last week; also, Mrs. J. C. Ashford yesterday.

# SUMMER NORMAL . . 218 McDowell, Va.

Opens June 7, 1897. Continues 4 weeks-6 days to, week. INSTRUCTORS AND DEPARTMENTS.

I Arithmetic, - C. S. McNultv. Geography, - O. A. Bird. I Grammar. M. E. Hansel. - C. S. McNulty. Physiology, O A Bird.
 M. E. Hansel. Reading. History.

Penmanship. . C. S. McNulty. - M. E. Hansel, TUITION FOR ABOVE COURSE OF

Spelling. Theory and Practice, O A. Bird. FOUR WEEKS, \$5.00. Special instruction in the fellowing branches will be given for which a suitable fee will be charged: Latin, Algebra and Geometry, M. E. Hansel; II Arithmetic

and Civil Government, O. A. Bird: H Grammar and Drawing, C. S. McNulty. Board can be secured at very reasonable rates. For further in-

formation, address, B. H. HANSEL, Co. Supt. . . McDowell, Va.

# Notice of Renting.

I will rent privately my entire farm situated in Pocahontas county, W. Va., one mile north of Green Bank, consist-

ing of 250 acres, 40 acres in oats, rve. wheat and corn; 50 acres in clover for wheat, 20 acres in meadow, and 100 acres in pasture; also an excellent range for

sheep, on which 100 head can be fattened each year. A fine prospect for fruit, good garden, good house and convenient outbuildings. Farm well watered, with

good water. Church, store, mill, school and postofice are near the farm. Three years is the period for which I wish to rent, with the privilege of a longer time: The renter will be required to give

bonds, with good security, payable anmually.

For further particulars call on or address the owner, E.O. MOORE.

Green Bank, W. Va.

To Highland Teachers. McDowell, Va., May 20, '97.

TO THE TEACHERS OF HIGHLANDS Another school year has passed

and the time for another examination will soon be here. Every teacher knows what it is to undergo this ordeal, so let me urge all who expect to teach to prepare for it. The evident and marked improvement in the examination papers handed in last year and the year before, and made by those who !attended the Normals, has encouraged me to arrange for holding another one at McDowell, beginning Monday, June 7th, 1897, and con-

tinuing four weeks.

The people are demanding better! teachers. They pay their taxes in order that their children may be better educated. The taxpayers. parents and school officers, expect. you to prepare for your work. They will certainly expect you to attend the Normal every day. When the eschool officers employ teachers they will insist that something more be done than visit the schoolroom 100 days, call the roll, make off reports and collect their money. The trustees do not demand that teachers shall know everything, but they do expect them to be constantly adding to their stock of knowledge They rightly believe that teachers ! who are willing to teach year after year on second or third grade certificates are unworthy to fill the high calling of a teacher. Teachers should be learners-constant

and diligent students. They should also be conversant with advinced methods of teaching, keep- 1 ing abreast with the times by avail-

adding to their stock of knowledge They rightly believe that 'teachers who are willing to teach year after year on second or third grade certificates are unworthy to fill the high calling of a teacher. Teachers should be learners-constant and diligent students. should also be conversant with advinced methods of teaching, keeping abreast with the times by availing themselves of current literaature bearing upon their profess-It is particularly important that teachers should attend all institutes and normals within their reach. The Institutes are helpful in many ways-especially in infusing new life into the teachers. But for real, practical belo and genuine work the Normals are far superior, not only affording an opportunity for free and full interchange of ocinions, but also giving time for thorough study and review of all the branches under competent instructors. Every arrangement has been made for the comfort of those

who may attend the Normal. Board can be secured at \$8 per month. For further information. B. H. HANSEL. address. McDowell, Va.

# A Case of Abduction. On last Friday, Susan, the adopt-

Jackson's river, while on her way to a neighbor's house was overtaken by A. J. Hook, a man of spicy notoriety in this as well as in Pocahontas county, who took her on his horse behind him and made way with her to Pocahontas county. It is not known certainly whether she was taken against her will or not, but up to this time she has borne a good reputation and was well thought of in the community

and there is no reason known why she should take this step. She is

about fifteen years old.

ed daughter of Mr. Jack Griffin, of

West Virginia Letter,
Green Bank, June 7.--We

ery thing is growing finely.

We have a fine prospect for wheat and rye and oats. Apples will be abundant and a fairly good and a fairly good will be abundant and a fairly good and

will be abundant and a fairly good prospect for peaches and cherries; but "sound money" is very scarce, yet we have lots of good offers on calves and sheep.

Married, last week, at the home

Married, last week, at the nome of the bride, Leslie Feard and Miss Raby Ralston, the pretty and accomplished daughter of Mr. John Ralston, of this place. The happy pair are off on a wedding tour to McDowell, Va. They are both greatly esteemed, and the wish of their many friends is that their fu-

# Road From flighland to Pocahon-

tns,

The road spoken of in these coltinums a few weeks ago, which, it built, would reduce the distance hetween Monterey and Danmoro, from twelve to fourteen miles, is we believe, in a fair way of being built. Mr. Wm. Galford of Pocahoutas

Mr. Wm. Galford of Pocahoutss county, was before our Board of Supervisors Menday, having come here for the express purpose of bringing the matter up and to see what action the Highland people would take,

If this real is built it will undantibilly be a great thing for untered counties. Possboniss offers to
build it to the state line if Blain
build it to Mention Dade,
This we coustle as librari doft on
the part of our sister county, and
thought in close trading relation
through the library of the
who will be it is hundows to
the brought in close trading relation
with us. to yive of these facts we
should accept the proposition and
build our part of the read,

We will now look into the maltter of who will be benefited by this road. It will give the elitican after a large supe of Parahontan andere market, by several uniter, with a S. and P. Pileo have remarket frequently nobus the falling of the Posahontes fravel on that road. The reason of it is, that since the rathroad has been built to Baverly, W. V., afterseepole have a nearer d.e., W. V., afterseepole have a nearer d.e. W. Vis, these people have a neutral separation of the polar and shipping point threat Simus (e.g., 13st, if the large road is built it will be a people of the people of the people section of the country. This will be people section of the country. This will be resemble to the owner, This will be resemble to the owner, the same will be found that by the increased travel in one way and another. The close competition that has been among the merchants at Monterey for several years, has would in a trading

eral years, has much it a trading point of considerable note and has stopped many wagons leaded with produce that formerly west to Stainton. This being the case the Montercy merchants will thave in the volume of trade that will be three at the control of the proding the case of the case the Montery merchants will shave in the volume of trade that will be from this way and will be greatby headfield.

thrown this way and will be greatly benefited. Another great convenience for these people will be the Meadow Dale flouring will. This road would open up a large section of the country to it and the owner of the mill would be correspondingly benefited. But those who would receive the greatest benefit will be the persons who own will lands along the route. As it now is the valuable timber on these lunds will have to remain valueless, but this road would give an outlet for it and would enable the owners to

along the route. As it now is the walchale timber on these loads will have to remain valueless. but this read would give an outlet for it, and would enable the comers to compete with other places of the two counties from when lember is now being furnished. Aside from this there is valuable and that will be converted into furner all along the route, if only an outlet can

# A New Railroad Deal.

We will now set our usual Spring Dish of trailroud news before our renders, We take it from the Parson's (W. Va.) Advocate, of last week, and is as follows:

We are informed by good outbor.

We are informed by good authority that the C. & O. Railroad has purchased the Dry Fork road and will extend that line on through to Virginia. The C. & O. engineers are now surveying the route and promestive contractors are on the ground to bid on the construction. The extension of this road means a great dea! for this section of the country, and especially would this be true should the road be extended through to Rowlesburg, as in all probability it will be in the near future. This would give competitive rates to Parsons and make it one of the best sites for manufacturers in West Virginia, and water power in abandance, and unfold quantities of coal, and timbers of all kinds in close proximity. It would be an ideal location, and Parsons will extend the right hand of fellowship to all industries locating

here.

## THE HEAT PLAGUE OF AUGUST, 1896.

Mrs. Pinkham's Explanation of the Unusual Number of Deaths and Prostrations Among Women.

The creat neat placue of August, 1896, was not without its lesson. One could not fail to notice in the long lists of the dead throughout this country, that so many of the victims were women in their thirties, and

women between forty-five and fifty. -

The women who succumbed to the nrotracted heat were women whose energies were exhausted by sufferings peculiar to their sex; women who, taking no thought of themselves, or who, attaching no importance to first symptoms, allowed their

female system to become run down. Constinution, capricious appetite, reutleusni

fore bodings of evil, vertigo, languor, and weakness, especially in the morning, an itching sensation which suddenly attacks one at night, or whenever the blood becomes overheated, are all warnings. Don't wait too long to build up your strength, that is now a positive necessity! Lydia E. Pinkham's Vegetable Commound has snecific curative powers. You cannot do better than to commence a course of this grand of first symptoms you will see by the following letter what terrible suffering

medicine. By the neglect came to Mrs. Craig, and how she was cured :

"I have taken Lydia E. Pinkham's Vegetable Compound and think it is the best medicine for women in the world. I was so weak and nervous that I thought I could not live from one day to the next. I had prolapsus uterl and leucorrhoea and thought I was going into consumption. I would get so faint I thought I would die. I had dragging pains in my buck, burning sensation down to my feet, and so many miserable feelings. People said that I looked like a dead woman. Doctors tried to cure me, but failed. I had given up when I heard of the Pinkham medicine. I got a bottle. I did not have much faith in it, but thought I would try it, and it made a new woman of

me. I wish I could get every lady in the land to try it, for it did for me what doctors could not do "-Mrs. SALLIE CRAIG. Baker's Landing. Pa.

Union has decided that no women barbers may join the union. St. Paul's union asked if it could admit them.

Grand Rapids husiness men have resolved that they shall not be further "worked" in the way of advertising in programmer gotton up by citias, churches, St. J., has just been unionized. Non-union nem were fired

and the company is paying union men 25 per cent, more than is paid non-uniconists. An Hilfnois court ordered a railroad to pay a discharged conductor 6975. The conductor was not given a reason for his dismissal and he was unable to secure work on any other road.

### Big Cattlein Pocahontas,

We are fearful that Preshoutas nastaken the belt, away from Highland on big cattle. Read this clipping from the Pocahontas Times and you will think so too:

"Cattle that will sell the middle of July at \$85 per head are rarities in this county, but Col. T. F. Callison, of Locust, has a herd of twenty-five four year old steers, which have been sold for five cents per - bound, to be taken away about the first of August and exported. They average 1650 pounds each now, and by the time they are shipped they will easily weigh 1700. They are the finest steers the writer has fever seen. Each one of them is a perfeet specimen of his kind. best steers seem to be a cross between the Hereford and Shorthorn. There are a number of farms in this county on which could be raised export cattle if the custom of selling three year olds to porth western feeders were changed. Col. Collison takes the view that the millionaires have come to stay and that the best use we can make of them is to raise beef which they will pay a high price for. These steers are all Pocahontas stock and have about doubled in value in the past twelve months. It took a great deal of grain and careful attention to winter this herd, but they will pay well for their keep-

# Early Method'sm.

It may be of some interest to your many readers to read something of early Methodism as it then was in our country about the beginning of the nineteenth century, and compare the labor of the ministers then and now, and how it has increased both numerically and tinancially. The circuit was then known as the Pendleton circuit, and embraced the counties of Pendleton, Highland, Bath, Pocahontas and Greenbrier. There were generally two preachers on the circuit and they preached every day in the week except Saturday, which was a day of rest with them. They

visited from house to house, taking in the poor as well as the rich, carrying with them their Bible, hymn book and Discipline. We find no account of their being any church in the bounds of, the circuit. They preached in some dwelling-house centrally located in .

# MAD RUSH FOR GOLD.

Thousands Willing to Run the Rick of Starvation

### SYNDICATES AT WORK Steamers are Crowded With Men and

Some Wemen Bound for the Klondiks . The Owner of Dawson City, Says tint

the People There New Can Hardly be Supported This Winter-Tules of Great Earnings.

A despatch from San Francisco, Cal., says: The entire Pacific Coast has gone gold mad sluce the discoveries of the vellow metal in the Klondike region in Alaska. The Alaska Commercial Company's steamers will not be able to carry a tenth of the bordes now pre-

paring to start for the frozen gold fields. Great processions of men, and some women, have been filing in and out of the stesmship offices, asking nerticulars about transportation and routes. It is estimated that 5000 people will start from San Francisno towards Aluska before August. From the ports of Puget Sound as many more will embark. Tacoma reports that men of wealth in that city are forming syndicates and advancing grabstakes, with the understanding that the men who do the work are to receive half of the gold they secure. These syndieates are made up of from ten to twenty men. and each one signs a contract to receive his sham of the propeeds. Each party will scotter on reaching the placers, and it is estimated that at least two out of each party of bus will strike it rich and bring the average

# THE KLONDIKE REGION.

Gold Fever Takes Complete Possession of San Francisco.

TRANSPORTATION RUSH.

TRANSPORTATION RUSH.

The Story that Two Thousand Graves at Forty-Mile Post Tell of the Gold-

Seekers' Sufferings Is Denied-Rich Quarts Said to Have Been Found on Stewart River.

A despatch from Sax. Francisco, asyst-The througe shout avery shipping offset bath has even remote Alaskan relations, have by no means diminished. It would seem that the only circumstance which prevents the wholesale depopulation of San Francisco is the limit to the transportation especifies. Not only strong men whose broad backs, bround discess and work-worn bands tell of previous experience with albenjas tell of

bronzed faces and work-worn hands toll of previous experience with labor; but clerks and professional mes and women in bundreds are seeking information or transportation to the land where nuggets are to be had, they think, for the picking up.

Every day area some new scheme for overcoming the difficulties in the very of reaching the Kinodake region, not the feet of the Kinodake region, not the feet of the Kinodake, transportation company schemes is belong engineered by a man who schemes is belong engineered by a man with other and the scheme of the company giage by the widdle of hoptember. He will havier a large suiling reased and the party will consist of stary man, such of whom with permitted to go unless he takes this quan-

Each passenger will be charged \$225 for the trip, and the projector of the scheme says that for this some be can land them all in Dawson Gity before. September 29. The skip still carry a large lighter, and a Mean hannsh will be used to tow the lighter from neo but would-be passengers continued to throng the company's office. The Commercial Company not only declines to sell any more tickets, but its representatives do all in their power to discusso auniteants from making the trip until next year. Twenty or thirty persons have tried to secure accommodations for the first trip next June. The company declines to bind itself so far ahead. although a number of the applicants were willing to put up a forfeit and agreed to abide by any terms the company might make for the trip. Returned Yukonites deny the story that two thousand graves at Forty Mile Post tell of the terrible suffering of the gold seekers. F. G. Bowker says that so far from being over two thousand deaths in the Klondike region during the past three years, no miner died there until something less than a year ago, and since that time there have been three deaths in the whole district as far as known. In the gravevard at Forty-Mile Post, which has served for all that section for some years past, there are only between thirty and forty graves. The latest rumor from Alaska is of wonderfully rich quartz in large quantities being found on the Stewart river. The particulars are vague and beyond the fact that the ledge is a large one and that the rock assays \$300, nothing can be learned of them. This, if true, will mean much for the Klondike district. The Stewart river runs into the Yukon not far above Dawson and it is

reasonable to suppose that the placer gold now being found below may have its origin in the mountains at the head of the Stewart river and neighboring streams.

posed of for this trip were sold some time

West Virginia News GREEN BANK, Inly 26. - Fine rainy weather; everything growing nicely; wheat and rye are splendid and meadows the best in many years. Corn is fairly good and buskwheat good, but berries scarce. W B Hepler, of Millboro Spring. has been making himself very prominent here for a time deliver-

ing enlarged pictures.

The cross roads school-house was entirely consumed by fire a few nights ago. The fire was of in-Messrs, Sam Hannah and P

cendiary origin, of course. Arbogast attended Marlinton last week as members of the Book B'rd. Several cases of whooping-cough in our 'burg, and considerable sickness generally. We do not like to make unkind cuts, but I do wish some postmus-Monterey ter between here and would send letters direct, as if they were first-class mail matter, and let some one have the office who will.

Va. It will traverse miles and miles of forest that has never been touched by the woodman's ax. and will open up for development a large section of country that will make productive farming and grazing lands. nearest point to Highland on the line. From Monterey it can be reached by way of the Staunton and Parkersburg 'pike in twenty-five miles. In the matter of freights this will be a big saving to all the county west of this point, as the trip can be made in two andone half days, when it takes double that time to go to and return from our nearest shipping point, So, if it should be, whack will go another large slice from Staunton's terrstory.

Across the Alleghanies Awheel An article bearing the above caption, written by John B. Carrington, appeared in the July number of Outing, a magazine published in

New York eity. We ask our readers to follow the writer through our county and make the comparison as to the way things really are and the way he pictures them; then if you don't find your faith in all such articles shaken to the very foundation you will come out of it better than we we have done. It is almost one big lie from beginning to endonly thing true to nature in con nection with it are the illustrations.

His faithful kodak would not lie. it is an easy matter for us to see how such gross misrepresentations of the mountains, and those who

dwell among them, are made. Farther comment by us is use-

less, so here it is. "The plunge into Calf Pasture

was setting as we climbed the Bull Pasture. The billowy clouds, motionless, overhead, caught and flung back the flaming color, while the mountain peaks medified it into a thousand different hues. We lingered on the mountain top watching nature's glorious pyrotechnics, until the shadows began to deepen in thelvalleys, and night was slipand up unawares. We dropped

they all winked their left eves significantly; it was out of the game season Dinner was served on a rough plank table a little higher un the mountain, but so placed that we heard the murmering of the stream and bad an extensive view down the valley. It was quite a feast, and we told stories, sang songs, proposed toasts, and smoked many a fragrant pipeful. As Philin averred, it was the only swell

so all was forgiven. They had some venison steak in addition; and

when I inquired where they got, it

"Leaving our new friends, we ascended Turner's Draught, as they cull a ravine between the ridges that project out from a mountain proper, in contradistinction to a valley which lies between two mountains. Our big dinner had When we read such productions made us lazy and the sun was not. so we made slow progress, stopping

dinner he ever attended in

shirt-sleeves.

to rest on the moss at every mountain spring, or finding excuse to come out of the sun and penetrate a little the woodland depths. At last the road turned up and began by easy stages to ascend the great monutain on our left.

Creek delived us, so that the sun "We've walked five mountain chains thus far,' said Philip, 'and I am going to ride this one.' Accordingly he bent over his handle bars and started off briskly, leaving me to rled along as best I might The road wound up a little way. then drapped to the bottom of the draught, where the masses of wild vellow blies were mingled with the flaming red of the cardinal flower. I admired all the rich color and the birches that bent over the stream. which now, augmented by spring-

is noto some dark aby-, but presbuilty the twintching helits of the Little fown of McDowell came cheer it into view. The supper-bolls were ringing as we todo up the one strandlingstreet of the place and stopped at the Mansion House tay-

orn. "The Mansion House had quite a manorial air and the softest feather heds! The night was cool on mgh to onke a blanket comfortable - a perfect night for sleeping. next morning the mists veiled all

the mountain peaks and hung about McDowell like great white curtains. Suddenly a breeze blew over the Bullpusture and swirled the mists down over the tree-tons. They broke and reformed like shattered battalious, and then the wind

struck more flercely and drove them down the valley and up the opposite mountain side "'Look there, now,' said an old one-legged fellow who was smoking on the porch with us: 'that's

hammered down on us thirty years "And using his crutch as a pointer, he indicated the position of the two armies during the fierce little

battle of the Bulipasture. "The mists had vanished like phantoms before the morning sun when we rode away from the Mansion House to penetrate deeper into the mountains. We were following the derious windings of a turbulent little stream, going in and out thro narrow passes and sometimes over steep shoulders that would have

dealy a view hallon stonged us. "There was nor schling of bushendown the mountain side, and a sopling swung out over the read,

waterway I spurted forward "ac the road left the valley finally and wound aloft. A few hundred vards was enough to tumble me off quite winded. Resting a little beyond in the shade of a tree I speed Philip's biovelo in the underbrush. Guided by voices. I climbed down into the steen valley and came on a party of mountain boys in swimming, and my companion balanced on a stump

birthes that best over the stream.

which now, augmented by springer

and runs, vas a considerable little

ready for a headlong dive. "We climbed up on the mountain finally, and coming to the top found ourselves on a ridge whose neaks stretched away to the north and the south, while far down below to the east and the west, were valleys, and in each a stream. stiff breeze was blowing down from the northwest, rolling them over the mountain neaks and driving them along the valley behind us. In front the broad santicht lay over the landseane, unfleeked by even t just the way Stonewall Jackson a shadow, while behind all was

dark and threatening. The clouds mussed around the eastward ridge. and we saw the long, slanting rain come down the hindmost valley and heard-its steady onward tramp like that of an approaching army, Meanwhile the ridge on which we

rested was the dividing line, and stood like a great bulwark hemming in the beautiful country where the sunlight lay. The clouds came nearer and nearer until a fine mist blew in our faces, and the best of the rain in the valley behind was almost a roar, while the focward vailey was calm and clear. The black clouds piled up higher and the world behind us was blotted

out. Just then a lank mountaineer on horseback, dripping wet, handane down from which was a came up through the clouds. stillwart young fellow. He drop-

"Boys he evelaimed I am so alled to see you. I took the moun-Lain elevator. By the Lord Harry! have seen in three months,' and he becamito shake hands vociferously. Whate he was explaining that he was a member of a corps of civil enfrincers who were surveying a railroad through the mountains, first one and then unother of his companions dropped down the saplingelevator route, until there were five

stlendid-looking bronzed young men around us. Seeing a wistful expression about the party, I divined their trouble and forthwith drew a box of Yule mixture from my traveling-bag. All five began to dance a hornpine in excess of joy. It seems they were out of tobacco. and had been able to get only the "long green" that the mountaineers

used. Five briarwood pipes were drawn out, some deep puffs taken, and then five happy young gentlenien almost fell upon my neck for greatstude. "They would not hear of our

ularly of detaining us by force. They were so insistent that we agreed to stay for dinner. They were folly fellows and led the way singing college songs, making puns and jokes. They were profuse in anologies for not taking up up the mountain elevator, explaining that the 'darn thing arose to the top as soon as it came down. But what else could you expect,' they added, when you are sixty miles from the

neurest railroad?" "They were camped on a shelf of the mountain, under a shoulder of rock. To one ode a stream tumbled over it the whole ten feet, and

down to Monterey before the clouds strikes Cutain Gan and course, back on the you side, or you wan't keep as dry as you be now." "We took his advice and in fifteen minutes had dropped down the five nutes to the next valley which

was as bright as the land of eternal sunshine. Remembering the misadventure of the Calfnasture Creek, we slowed up near the bottom, and stopped at the little stream where a crowd of boys were catch-

ing minnows. "'Are you going fishing tomorrow, hovs?' I asked.

"'Naw; tomorrow is courtday," was the response. ". What has that to do with fishing?

"Why, the judge goes fishin' on courtday. "I thought the judge held court on courtday, said Philip.

" Maw: he goes fishin on courtday, and pays us for ketchin, his minnows. "We rode on to Monterry, the

countyseat of Highland county. where we inquired about the fishing indge. We learned that, unleaving them, and even talked joclike the mountaineers of Cumberland and other Kentucky mountains, these Highland men were so law-abiding that court-day was celebrated by the county indge as a holiday, as the docket was never longer than an hour could dispose of. In the whole course of our wandering through the Alleghanies we never saw a drunken man, or

even a drop of liquor, and indeed the sale of liquor is prohibited thro most of the mountains. "Leaving Monterey we skirted

several mountains and came to Headwaters, up in the fastnesses of the Alleybanies. Here we decided to stay and do some fishing for for trout. A little stream came

HOTEL STAR.

W. A. Cunningham, Proprietor, Monterey, Va.

"Hotel Star," which is only a sew name for the 1od "Gunning-harn House" which did a thriving business for a number of vears, has seen so remodeled, refitted and restricted to be in a position to offer the best accommodation to the traveler and bourder. Well-fur-nished rooms, cool and neatly kept; in table provided with all that can be half; kind, court-ons and home-like treatment, are the advantages

Hotel Star has to offer to the public. Sample room for drummers. To the general improvements a large stable, with all advantages has been added, and special care

will be given to larses.

Terms as reasonable as any other first-class country hotel. For

rates address proprietor.

Mrs. Atkinson's Trial On last Monday a week the wife of the governor of West Virginia was indicted for forzery and is now on trial. All west Virginia is discussing the unique position of its gevernor and "the first lady in the c State," and the trial will be one of .! the most noted that ever took place, ic The couple were recently married. The charge of forgery is in con- 1 nection with the estate of Mrs. Atkinson's second husband, the late Judge Camden. An interesting poins of discussion is the propriety of the Governor pardoning his wife

should she be found guilty. The trial is now going on and the evidence of the prosecution is very damaging. Lirs. Atkinson says that if she is convicted she will not accept a pardon from husband. Later-The jury hung in case, seven for acquittal' and for conviction.

a

We find under the above caption. an elaborate article, nublished in your invaluable journal, written by I a Mr. Carrington, the nurport of which is a nacration of the trave's - of the author through an insolute g beather land, which he locates in Highland county, Virginia and Po-

Over the Alleghanies Awheel.

calontas county, West Virginia. . If you will allow me a little space, I I may dot something in response to that uncalled for, unprecedented article, which he gave in broken doses; which was very considerate

of bim, as the first dose was sufficient to give the delicate, nervous reader lockjaw. A double dose of that deleterious extract of falsehood might have thrown the reader into should ever write another article of his grand discoveries, to not inst one single word of truth in it, that

spasms. I would advise the author for the health of his readers, if he it may serve as an antidote, for those spasmodic effusions incident to the surprise and excitement of nervous readers, that they may shun the onslanghts of the article and escape with impunity. For his a errative has wounded more people in a moral sense, than were crippled

at the battle of Bunker Hill.

The tone of that intolerable, unprecedented article conveys the idea

that the so called heathen land or in a state of anarch, and despoti m: in a state of anarchy and despotism; destitute of either law order or groupel, shrouded in infamy and crime, and enveloped in the Josk gloom of moral midnight. He indicates that those heathers have a kind of form which they call

a court, but it has no relation to a judicial court, for it only lasts one honr, then the judge and suitors go

a fishing, consequently there is no nenalty for crime, for we read in the scriptures where there is no law there is no penalty. According to this theory, we can use the vices interchangably, if we get tired of lieing we can indulge

in stealing, if we tire at that we can choose some other avocation in the catalogue of vices; it is rich in essourses. We think the author of this grand discovery should locate and become a citizen of this heath. en land, he certainly would enjoy himself, being surrounded with so many kindred spirits. He criticises our architectual structures, saving that he only saw one picturesque house in this strange land. All the other houses were cabins, with

but one room in each, where they cooked, ate, slept, quarreled and made love. Probably he looked suspiciously to the people and was not admitted in their parlors, but was taken into some out-house or negro kitchen which they thought would be more

suitable to his grade. When those engineers met with him and called him the only civilized being they cooked, ate, slept, quarreled and made love.

Probably he looked suspiciously to the people and was not admitted in their parlors, but was taken into some out-house or negro kitchen which they thought would be more suitable to his grade. When those engineers met with him and called him the only civilized being they had seen for three months, they must have spoken ironically and used that figure of speech instead of the prefix un. The author of that parrative is a great writer. He criticizes and reflects odium on every host and hostess with whom he staid all night. He criticizes their language, their dialect, their manner at the table and their victuals. He spoke of their muddy coffee and enormous soda biscuits. This is not in harmony with the deportment of a gentleman; it evinces low breeding and low-priced ancestry. He should have a present for this graphic description of our heathen land if he ever returns; we suggest a new suit of clothes that will smell as sweet as tar and make him look as gay as a gander well fledged. W. S. Thompson.

# West Virginia Notes. GREEN BANK, Nov. 21,-We are having fine weather, and wheat and rve are coming to the front.

Yesterday Rev. Morgan Matheny preached a good sermon to a large congregation at Oak Grove, and that reople would welcome him often.

Miss Annie King, of Marlinton, who is teaching at Green Bank. visited her brother W. B. King vesterday at Oak Grove, where the

latter is teaching. Mr. T. J. Williams, of Frost, visited his daughter, Mrs. Wooddell." On last Saturday one week ago,

vesterday. the Oak Grove, light-weight footbull team played Green Hill a match game, which resulted in two goals for Oak Grove to none for g Giem Hill. Another game will le

played next Saturday at Oak Grove by the same teams. Mr. Lacey Fitzgerald, who had been at Davis, W. Va., a long time, is now at home: also Mess. Dave Sheets, Harrison Sheets, Frank Arbogast and Marion Gam, who have been in Little Levels threshing.

County. "The Smoke Holes" is the title given to a section of country situated in Pendleton county, W. Va., and among other things is famous as being a ranged, mountainous locality, and the seat of five or six distilleries run without "leave or license" from Uncle Sam. Recently a well-known photographer who bay been operating in and around Franklin went to the "Smoke Hole"

2. Illicit Distilleries in Pendicton

section to take views, and , while

n. I there he made the acquaintance of one of the "gang" who was well acquainted with the neighborhood and on to the ropes as to the modus operandi of the several moung tun dew distilleries, and when the or photographer expressed a desire to

promise being given, at the ap-10 pointed day Le was blindfolded and 1 ticken by numerous paths, through the brush and over rocks, on a s mountain about four miles distant it from the starting point. There the hoodwink was removed, and before him was the cobject of his visit- a moonshine distillery in full blast. He, however, would not have known it had not his guide called his attention to the fact, for the operating room consisted of a long, projecting cleft of rocks, the opening of which was covered by trees or saplings set up and covered by Lrush in such a way as to deceive to a certainty! any one passing that way by accident or design. The guile conducted him within, and there the apparatus for the manufacture of c the juice of the forbidden fruit , was revealed to him. The necessary water was piped, a | long dis-

tance from a spring higher up the mountain, the pipes being entirely | concealed and grass growing over

them in such a manner that a stranger might walk the length of the pines and never know that there was running water beneath. Having taken a number of photographs, the photographer was once more blindfolded and taken by the same guide to his storpingabove. He says he has no idea

where he was taken and cannot

even tell the direction: This seems remarkable that Pendicton should have such an out-ofthe can corner.

A Klondyke in Highland. At the law office of Charles P.T Jones writings have been entered into this week which will set on foot a scheme that may bring to the parties interested inestimable wealth and make a Highland Klon

Aska. Many years ago a gunsmith by the name of John Hall discovered a metal in Vanderpool Gan which he melted and monided into buliets In this way, at different times during his life, he used a great deal of the curious metal which he called lead, but he could not be induced to reveal its hiding place, and at his death the mystery still remained

uncleared. Eight or ten years ago Mr. John Trimble, of this place, in a roundabout way came into nos-

session of information recording the location of the mine. He imparted what light he had to Mr. James H. Botkin, who was then in his employ. Mr. Botkin and Dr. I. H. Trimble started out to try their luck, and after having made several fruitless searches took into their confidence Mr. Ernest M. Slaven, who lives near the favored spot. It was not very long after that that Ernest took a knut by himself. and at the little bridge i near the Dug Bank road be was of the metal which had been washrewarded by finding small particles of the nettal which had been washed down the little stream. It was an easy under to follow the stream and locate be metal in a ledge of rocks on a ridge above the read. The same intel has also been found

near the Day Bank tool by was

This same inertal has also been found on the other side of the river.

This find was kept a secret, until recently, fee the reisen that the prospectors and the owners of the land could not come to terms agreeable to all, but this week terms were arrived at and the proper pa-

pers signed, as stated above, by Peter Gom and Win. G. Rodgers, the owner of the hand, and J. Trimble, Dr. I. D. Trimble, James H. Botkin and Ernest M. Slaven, prosnectors.

tors.

The work of developing, we understand, will begin at once, Small amounts of the metal have been sent to Charlottesville and Washington.

sent to Univoteesville and Washington, and the analyses show that it contains silver, tin and another very valuable metal used in tuning bells. If any of these metals can be found in sufficient quantity Highland, will not remain many months asyle is and has been in the years part.

The parties interested have sufficient means to develop and push

Mrs. Sarah Ann Rider Dead,
Mrs. Sarah Ann Rider died about
noon. Tuesday, December 7, 1897at her home near Frost, Pozahontas county, West Virginia,
aged about 53 years, and was buried on the 8th inst., in the Matheay burving-ground near Rehobeth

church, where most of her deceased relatives have been laid to rest and close by the side of the sleeping dust of her sainted mother who fell on sleep several years before. Her husband, James H. Rider, survives her, and she leaves a host of friends. Mrs. Rider was a lady of rare gifts and was a thoroughly consecrated christiam, whose self-denying, godly, saintly life exerted untoid influence for good on all around her. She had been a con-

sistent member of the Methodist Church for more than fifty years, and her home was ever open to ministers of the gospel whom she was always delighted to entertain in the name of Jesus. She loved to talk of the rich reward that awaits the christian, and now after a well spent life and full of years she closes her eyes on earthly scenes to open them in the bright beyond, where her reward awaits her. ----

Mormon Elders in the County, Elders H. W. Beckstrand, of Meadow, Millard county, Utah, and Elder James A. Wright, of American Fork, Utah county, Ucah, ar-

rived here on last Saturday evening and are putting up principally at Hotel Star. These gentlemen came hore for the purpose of doing missionary work in the county for the church they represent, being the church of Latter-day Saints, better known by us as the sect of Mormon. It was their purpose to get a place in which to hold a meet-

ing on Sunday, but failing in this they appeared before the Board of Supervisors on Monday and asked for permission to use the courthouse. Their request was granted, and so far they have se cured no place to hold a meeting in the town. On Wednesday they left here temporarily and went to

Hightown, but not until they had made a house to house canvass of this place for the purpose of distributing their literature. We are informed that it is their intention to remain in the county three months, and that they are traveling as did the apostles of old, without ourse or surin. One clause in their articles of faith reads as follows: "We believe the Bible to be the word of God, as far as it is translated correctly. We also believe that in May, 1829. Joseph Smith and Oliver Cowdery, while in the

woods praying, were ordained by a messenger from heaven, who descended in a cloud of light, and that the priesthood of Auron was con-The people of Harliband are a God-fearing people and have been

months, and that they are traveling as did the anostles of old, without purse or scrip. One clause in their articles of faith reads as follows: "We believe the Bible to be the word of God, as far as it is translated correctly. We also believe that in May, 1829, Joseph Smith and Oliver Cowdery, while in the woods praying, were ordained by a messenger from heaven who descended in a cloud of light, and that the priesthood of Aaron was conferred upon them. The people of Highland are a God-fearing people and have been taught to believe in the Bible as it comes to us through the ages past, and we believe that these young men, though earnest they may be. are losing valuable time in making

so long a trip for the purpose of making any changes in our religious belief and mode of worship.

# The demand for lots continues at Bartow. An agent is kept con-Bartow

stantly on the grounds.

Bartow has placed a restric-

tion in its deeds prohibiting the sale of liquor on any of the lots

sold by them.

Several industries are being arranged for there, and many build-

ings will soon be erected.

## Notice We will say to the public gener-

ally of Highland and Penelleton counties we have rented the tanvard owned by L. M. Pope & Co., at Doe Hill, Va., and will ron it ourselves. We want your hides and will tam on the shares, exchange leather or pay cash. Highest market price will be paid.

Yours truly.

. Normon Doctrine Concerning God. "We are indebted to a friend from the state of Utah, for the following letter on the Morsson Doctrine Concerning God. This

friend gives us quite a number of quotations from different Mormon books, so that our readers may see for themselves and form their own idea of what Mormonism is. The letter is as follows: 1. 1

In the most beautiful and romantic part of our country, sheltered by the natural fortifications of the Rockies, is a people as distinct in their religious tenets, from the orthodox churches, as the peoples of India and China. It is sel-

dom one is found outside of Utah. or the states where Mormonism

predominates, that understands, or cares to investigate their doctrines. It is believed by the people of

the east, that polygamy was about all there was in it, and that has been suppressed: This is a great mistake. Polygamy has not been suppressed, but it is practiced not only by the lowest classes, but by the highest officials of the church. If it were suppressed, it is only one

limb of the great upas tree that is e prending its poisonous shadows all

over our fair land, for 1700 mis-

sionaries are now at work, most of them in the United States. They use the same terms as other minisr ters and one not accommated with

from their lips as fluently as from those of the orthodox minister, but the meaning of the one is as far removed from that of the other, as learths darkest midnight, to the re-. fulgence of Heavens glory. Mormonism is materiatism in the

. The names of the Deity flow

strictest use of the term. They have no conception of

spirit aside from matter. They say "an imputerial substance cannot exist." (Ecclisiastical Hist., p. 196.) They teach that God has a

body of "flesh and bones as tangible as man." (Doc. and Covenants, n. 462 \

That he is simply an exalted "God himself was once as

we are now and is an exulted man." (Jour of Doctrines, p. 3) They worship Adam, "He(Adam) is our Father and our God, and the

only God with whom we have to do." (Jour of Discourses, p. 50.) It is told of Brigham Young. that he made this assertion in one

of his sermons: "God is a great big man just like me." Elder B. H. Roberts says concerning the "omnipresence of God. a thing impossible speaking of his

person." "While his person is con-

fined to one place at time as other

substances are, his influence ex-

tends throughout the universe as

does his power and through this

means he is omnipotant and omni-

present," (Ecclis, History, p. 196.)

Power and influence cannot take

organizance of the thoughts of the heart, and how we are to be brought

into judgement for these is the mystery.

Mormon doctrines are polytheistic.

"God is not eternal and self-exist."

tant but was a man, and came to his present state of exultation by degrees. There is number as well as a father in heaven."

"In the heaven are parents single?

as a father in heaven."
"In the leavene are parents single!
No, the thought makes reason stare!
Truth is reason: truth sternal
Tells me, I've a mother there."

The Haty Spirit is a form of claring the control of th

no occurring and will have his end." "(New Witness for God. p. 466.) Men become Gods, "Gods, angels and men are all of one species,

one race, one great family." (Key to Theology, p. 41.) "An immortal man, posessing a perfect organization of spirit, flesh and bones, and perfected in his attributes, in all the fulness of celes-

tial glory, is called a God," (Same, page 42.) These men who have become Gods can organize and govern the different planets. "Any of these

Gods may create, organize, people, govern, control, exalt, glorify, and eniov worlds on worlds and the inhabitants thereof," (Same, p. 43,)

Man posesses the same attributes and power that God posesses. "Au intelligent being, in the immage of God, posesses every organ, attribute, sense, sympathy, affection, of will, wisdom, love, power and gift which is posessed by God himself." (Key to Theology, p. 96,) The Hoty Spirit is a form of electricity. "There are several of

these subtile, invisable substances. Some of them are recognized under several terms, electricity, galvanion, resquetism, spiritcal magneti.m. essence, spirit etc. The purest and most refined and subtil of

all these substances, is that substance called the Holy Spirit." (Key to Theology, p. 46.)

The very wet weather we are having is hard on our boy makers. however the farmers have about all of their grain up, and the crop is said to be fine.

Possbontas Leiter.

We have had quite a bit of sickness in our neighborhood, and sevoval deaths Mr. Edward Mullenex is here re-

oniring Col. Protebard's mill. The telephone line from Marlinton to Mingo Flats is about completed. A line will be commenced

very soon from Marlinton via. Huntersville, Driscol, Frost and

Marlinton, to Green Bank. Then we hope the good people of Highland will extend the line from Mill Gap to Frost, a distance of twelve I

miles. This would give a through line from Staunton to Elkins. W. Va. There is a permanent R. R. s: r

vev being made from Ronceverte to the forks of the Greenbrier river, following the river all the way, a distance of about 150 miles. If this road is built it will open an

a wonderful country. Capt. C. B. Swecker, the silvertongued Auctioneer will attend

court at Monterey on the 18th. A streak of prosperity struck come of our lumber camps and

Nimrod Shifter.

those days

The New Road.
The new road that I

The new road that has been much talked about between Glade Hill and Mosdow Dale promises to be one of the must beneficial improvement now in sight. A competent curveyon has been over the gluiny can be reached by 2 digress and from there to Moulow Dale 2 degrees would be the steepest grant any point By this route the data up point. By this route the

and from there to Measlow Dale 3 degrees would be the steppest grade at any point. By this route the distance between Montercy and Dumnors would be 18 miles, thence to Marington 20 miles and from Marlington to Montercy 38 miles. Were a road opened up between Dileys Mil. 4 and Marlington the

to Marington to 20 miles and from Marington to Monterey 38 miles. Marington to Monterey 38 miles. Dileys Mid and Marington the shortened about 5 miles and then shortened about 5 miles and then the 38 miles apart. Drived is about 33 miles from Monterey and theretore the new route would be shortored to give route would be shortored to far as Drived in from Marter improvement are very concursating.—Poc.shontas Times. The building of the proposal

lington. The possibilities of the new maprovement are very encouraging.—Pocahortas Times.

The building of the proposel road mentioned above has been discussed through the columns of the Recorder at different times and at a considerable inguith, and now that it seems that interest in it has revived in Pocahontas country, we vived in Pocahontas country, we matter to our Highland roader the matter to our Highland roader again.

This road would bring the two counties much closer, together, it

counties much closer together, it would draw trade to Montercy that is now going to other points and would give to the people of upper Lattle Back Greek a direct route to the county sent, saving them in distance seem to eight miles

18 More About the County Debt. Edtor Recorder: "Citizen" in his article misquotes the meaning of my language when he makes me to say that I have the matter I have been discussing all my own way. I said I had the matter all to myself, as no one had had anything to say on it, which I understand to mean very different. However, I am glad to say that such a state of facts no longer exists, for others have lately contribated their views through the Rercorder and the article by "Ignora-98 mus" was sound and well presented. I do not care to enter into a discussion with any one who fights and adshoots from ambush and conceals himself under the very general term of "Citizen" but I will try to answer some of his questions, "Ignoramus" has very effectively answered some of the points he raises. "Citizen" asks if it will not require an act of the legislature to refund 0our bonds. I am of opinion that it will. The legislature does not meet till December next, but there is no reason why it should not be done as soon as possible. And under the most favorable circum. stances it will take a year to be in a position to refund. The roads would have to be located and advertised and let to contract before we could determine how much of money we will need, and that will take sometime. r. I don't know who "Citizen" is, or the place of his residence, but I will venture the numble prediction that he lives somewhere not far from the S. and P. Turnpike that he to lives in Monterey or Blue Grass or District, the latter I more suspect; if that he has a good read north and

south through his valley and the

well was a series and

District, the latter I more suspect; that he has a good road north and south through his valley and that when he wants to go to his county sent he rides there on a turnnike on which there is no gute and page no toll. Now come out and reveal your identity: if you don't we will take your silence as an admission of the truth of the above prediction. I base the above prediction upon the belief that he is a man who has all the roads he wante or needs, and is willing to let other people wait for their's. Most likey he don't have occasion to cross the Forks of Water. Doe H.I! Mc., Jack Mt. or Back Creek Mt. once in 5 "Citizen" says refund the

the S. and P. Turnpike that he

vears. "Citizen" says refund the debt and late the saving of interest and the total research proportion and the saving of the same that the same the same that the same that the same amount to the payaient of the newly controlled debt. This plan seems to me to contain the

deceded advantage, that we get the roads much sooner, and certainly the use of the roads is worth the interest on the mucro. If you have been a soon of the sooner figures, to tell us when, under his plan, we might reasonably expect these improvements to be made. I sooner that the sooner was a sooner to but I do not think ten years will see them completed under that system. Now if any of the local-

are willing to take the chances of being the last one to be benefited. see them completed under that system. Now if my of the localities that want these improyements, are willing to take the chances of being the last one to be benefited, then I am mistaken in my belief, If these localities stund together

If these localities stand together we can get them all inside of two vears. They are able to select supervisors who will carry out their wishes. My advice is to do it. You may count on opposition around Monterey and Hightown, very naturally.

Mr. Gilliam, a financier lately in our midst, in the interects of bank horthe county, informed the writer that there would be no trouble to negotiate our bonks at 44 per cent. If we have to negotiate them at that figure, \$25,000 bears more interest at 6 per cent than \$34,000 dies at \$4.2. And it work

\$34,000 does at 44. And it won't take \$8,000 to build the roads either. So I inist on my original statement, that these improvements can all be made without any increase in our taxes.

E. H. McClintic.

### Paper Mill Notes.

The West Virginia Paper Company on last week closed its options with the Covington Improvement Company and Mr. A. A. McAllister in this city. Four hundred lots were purchased from the Covington Improvement Company, and the price paid was \$16,810. The land purchased from Mr. Mc-Allister was about 69 acres and the price paid for this was about \$4.-000. They also purchased a small tract from Messrs. McAllister & Bell. Eighteen houses are being erected on these lots to cost \$20,-000, and as soon as these are completed 50 more will be contracted for.-Alleghany Sentinel.

it "digests what you eat" and restores the digestive organs to health. THE C, & W. EXTENSION.

Possibility of This Road Being Extended Before a Year is Over.

The Chesapeake & Western Rail-

on will extend its road in time through Pendleton or Highland to the east fork of Greenbrier River and with the meandering thereof to Durbin—Pocahontas Times.

Now let Highland's citizons do some hastling and this road won't go through Pendleton, but through Highland. The latter route offers the best grade for the road and cun furnish the most business, but we must- bid for it; our Pendleton must- bid for it; our Pendleton

friends won't be idle.-Highland Recorder. There is probably but little doubt that the Chesapeake & Western Railroad will be extended on westward at an early day, for the conditions surrounding this important road and the necessities of the development of trade will compel such a course. In fact-the necessity for extension has long been known and felt, and a paying road such as this must surely be, especially when extended, will not long escape the keen eves of capital. Our. Highland neighbors may confi lently expect that by this means an outlet for the trade of that section will not be very long delayed. We believe that the coming year will see this road to the foot of the mountain if not over on the other side. It has been stated to us that arrangements are very near to completion for extending the C & W westward, waich neculiar compli-

A Reporter.

Andy killed one turkey, after considerable manuvering, and thinking his brother had gone on toward home, was thinking of starting too, when he saw a dark object through the gloom, in the bushes, and when he saw it move slightly. was sure it was a turkey, and immediately shot at it. He heard a alight noise after the shot and walked up to take possession of his second turkey, and when near the place his brother said: "Andy you pave shot me"-which was true, a portion of his dark clothing being mistaken for a turkey. An examination proved that many of the No. 4 shot, with which the gun was loaded, had entered his body, and as quickly as the excited brother could do so, removed him to his home and summoned Dr. Pinckney Reyrode of Crabbottom. The Dr. was very honeful at first that, the

MURDER. Ars. Jacob Simmons Shot and Insimulty Killed. Extracts from the account of the horrible affair taken from the Pos caboutas Times of the 21st

"Last Monday night Jerome Kellison and Charles Apperson went to the house of Liz Cloonan on a branch of Swago Creek to see her two peices Liza and Es Campbell. Learning that they were at the home of Mrs. Anne Simmons working at blading cane, they went on there accompanied by a small boy

named Jason Cloonan. Dennis was sent to the house where he told his sisters that one of the little girls was sick and they were wanted at home. This has since proved

to be a rose to get the girls to leave While they were talking with

and come homé. This was about ten o'clock at night. the boys Kellison and Apperson came up and wanted to talk to the Campbell girls, Mrs. Simmons appeared and told them that they could not see the girls at her house. She finally said that they could talk to them in the yard if they wanted to. The girl Lizu went out and talked to Apperson but Es would not talk to Kellison. Kellison was very much enraced and commenced to curse and abuse Mrs. Simmous. W. V. VanScott was in bed, got up and came out and Kellison went away. VanScott went back to bed and Keltison came back and was more I hope it may not be, until we are satisfied, beyond, a doubt of the most timid, that we will main our independence in the end. If it should be otherwise, I am

regionad : God's will not mine be done I could part from earth. were I doomed to die soon, far more willingly, if I could once wore see the fuces of Father, Mothor Mury, Harriet, Christenia, Taytor, Etla May, Blanche, Charlie and my nameless little brother. But if this should be denied, I have only to say in conclusion, that they need not weep for me, but be proud rather, and smile when they romember that I died on the battle field

try-fighting for what I consider her rights. Joseph H. Chanoweth, Major, 31st Va. Reg't." Then on the 5th of June, at

Camp, near Harrisonburg he gives information of the movements of the command to which he belong-On the 8th of June at different

hours of the day, he reports the progress of the battle as he sees it. At 2.35 p. m. he says: "This is decidedly the warmest battle with which I have ever had anything to do. The artilery fire is superb and the musketry is not so alow. We

### LAUDANUM POISONING

Fliss Clara Gum, Of Virginia, Takes a Fatal Dose, [Baltimore Sun, Dec. 2nd.]

Miss Clara Gum. need 28 years. danghter of Peter Gum, of Mendow Dale, Virginia, died about half past 2 o'clock vesterday morning at the Johns Hopkins Hospital after having swallowed four ounces of landanum. Miss Gum went to the hospital about 6 o'clock Thursday evening and applied for admission, stating that she was soffering from stomach trouble. She had been at the hospital about a year before under treatment for gostric pleer. She was token to ward H and was given in charge of one of the narsey who took her to bathe, as is done with newly received nationts. The narro was called from the room for a few minutes. On her return nothing unusual appeared in Miss Gum's actions, which had been natural and composed since her arrival After the bath the nurse noticed that Miss Gum became drowsy and when she was put to hed she became anconscious. The recordof Miss Gum's previous case were searched to find if the cause of her unconsciousness cond be explained. Poisoning was then supgested and a stomach pump revealed the laudanum. It was impossible to revive her. A bottle which laid contained landarium was dis covered. It had been excefully washed and half filled with water. It have the label of Streets & Drugstore, 1304 North Char es street.

ore, 1391 North Char es street.

It is supposed Ma ~ Gum rescheditioner vesterday and hough is landanum on her way from brien statement to the hissitud. No unse for the smalle is known be

rence of the illness. Coroner Sillineks declined to hold an inquest. The hody was sent to the morgue.

It was impossible to reach the family by telegraph and Silli-cks mailed a letter to the family last niceht.

The information imparted above is sad indeed, and it came as a great shock to the family of the deceased and her numerous friends.

by whom was loved for her many excellent qualities. The coroner having charge of the remains, not knowing that the ladies' home could be reached by wire, transmitted the news by let ter, and an account of it came out

in the papers and reached here on Monday night, at the same time the coroner's letter arrived. A telegram was sent immediately directing that the remains be shipped to Stannton at once, but for the reason of some city regulation they were not started nutil

noon Wednesday, arriving at Stauntion that night at 7. By hearse they were brought to West Augusta, where T H Slaven and Sons. undertakers took charge of the body and brought it to Green Hill cemetery where interment will probably take place this evening (Thursday). Miss Clara Gum was a daughter

of Peter Gum. Esq. a prominent countyman. Her mother has been d-ad several vears and is buried at Green Hill church
